CATALOGUE

Create catalogues or warranty certificates by linking the product photo with the related important informations (description, barcode, price, materials…).It is possible to create fully customised printable catalogues defining the needed informations to show up: the size of the photos (fixed or real), the items or the category to include in the page.
Once the catalogue is generated, it can be easily shared by email, instant messengers or large file sharing platforms.

iALO – iPAD APP

App designed for the sales on the road. Specific app designed for Apple devices, works offline and allows to send quotations, catalogues and order confirmations.
Can be easily integrated with ERPs.
